

KRAFT ROLL PENCIL POT

You will need:

- Toilet roll tubes
- Tissue box / scrap cardboard
- Ruler
- Pencil
- Paint / felt pens
- Wrapping paper
- Scissors
- Glue

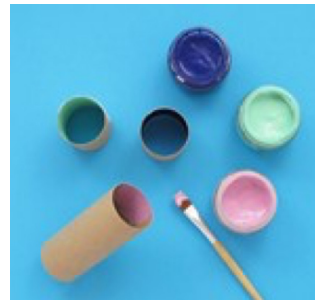

Step 1:

Measure and cut your toilet roll tubes down to make different size pots, you can do as many as you like for your stationary pot.

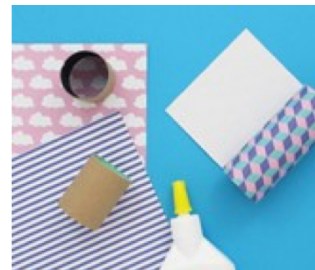

Step 2:

We painted the inside of our toilet rolls – this is an optional step!

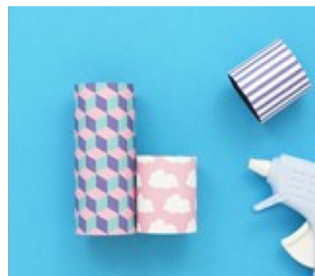

Step 3:

You can then use the green card to make a bow tie to finish off your Easter bunny craft! You can decorate your bunny however you like; with whichever colours, you like!

Step 4:

Next, stick the tubes together in your desired layout. A hot glue gun works best, but glue sticks or cello-tape will work too!

Step 5:

Put your creation on to a flattened tissue box, you could use a cereal box too, cut around the tubes, and glue it down. You can then fill your pots with all your stationary bits!
